Subscriptions Being Taken.

That the interest in the proposed railroad between Paris and North Middletown and from that point to Hedges Station to tap the L. & E., is still at its height is evidenced by the number of subscriptions received by a committee composed of Messrs. D. C. Parrish and W. O. Hinton, members of the City Council, and although they have been out but one day they have met with every encouragement and the citizens and business men of Paris are coming forward without hesitation and contributing liberally.

Since it has become known that the L. & N. expected the citizens of Bourbon county to assist in securing the right of way and furnish funds for the purpose there has been much interest manifested, and Messrs. Hinton and Parrish volunteered their services in soliciting subscriptions.

Considering the amount of time they have had the matter in their hands their success has been very flattering and they express themselves as confident a sufficient fund can be raised to satisfy the railroad officials and to demonstrate the interest of Paris and Bourbon county in the project. Mayor J. T. Hinton heads the list with a subscription of \$1,000, which he several weeks ago stated he would contribute to a fund to assist in the purchase of the right of way.

Aside from this there have been several who have contributed half that amount and others still smaller sums, but there is a sentiment in favor of the proposition that bids fair to bring others into the list with amounts that will bring the aggregate up into the thousands.

North Middletown people are said to be on the move and a list for subscriptions is being circulated at that point. Reports are to the effect that they are meeting with success far beyond their expectations. It is time for the business men and citizens of Paris and North Middletown to exert themselves with the sole object of securing the road which will mean so much to both communities and contribute liberally.

Officers Elected.

The election of officers of the Bourbon County School Improvement League for the coming year resulted as follows: Mrs. James McClure, president; Mrs. Albert Mitchell, first vice president; Miss Lucy Simms, second vice president; Mrs. Lewis Rogers, secretary; Mrs. Frank Lowry, treasurer. Miss Mabel Robbins was appointed delegate and Miss Mary Woodford, alternate, to the State Federation meeting at Mammoth Cave May 27. Mrs. C. M. Clay was appointed delegate and Miss Lucy Simms alternate to the General Federation Biennial at San Francisco. June. Mrs. R. B. Hutchcraft, who is now president of the league will go to the Federation as State Treasurer, and Mrs. James McClure will go as Mrs. Hutchcraft's appointee.

RELIGIOUS.

Rev. E. M. Lightfoot will be in his pulpit at the Baptist church Sunday morning and evening at the usual hours.

Officers Elected.

At the regular meeting of the Women's Society of the Christian church held Tuesday the following officers were elected for the ensuing year: President, Mrs. Robert Goggin; first vice president, Mrs. R. B. Hutchcraft; second vice president, Mrs. Thos. Helm Clay; third vice president, Mrs. W. R. Scott; secretary, Mrs. Jos. W. Davis; treasurer, Mrs. John J. McClinton.

Circuit Court.

The case of the Commonwealth against Dan Elite under indictment for maliciously striking and wounding Sam Victor in Millersburg, came up for trial Tuesday morning, resulting in the jury bringing in a verdict of guilty. The penalty is an indeterminate sentence of from one to four years in the penitentiary.

The suit of William G. McClinton against the Louisville and Nashville railroad was taken up Tuesday afternoon. The suit was to recover damages for the loss of several hogs in a car which Mr. McClinton was shipping to Cincinnati, and it was alleged that the delay in delivering the hogs caused the death of a number. The case was unfinished when court adjourned Tuesday afternoon, but on Wednesday morning the jury returned a verdict in favor of the plaintiff in the sum of \$225.50.

The case of John Snyder against the Louisville and Nashville railroad company, the trial of which was entered into Wednesday, was concluded yesterday morning the jury returning a verdict in favor of the defendant company.

Bess Gilkey, indicted by the grand jury at this term of court for grand larceny, was dismissed. The case came up for trial yesterday and the evidence given in the case was held incompetent by the court, resulting in the indictment being dismissed at the request of the Commonwealth's Attorney. Gilkey, it was alleged, broke into the grocery store of Bruce Holladay.

The condemnation suit of the L & N. railroad company on appeal against B. B. Marsh from the lower court was in progress when court adjourned.

A Reader Cures His Constipation—Try It Free!

Simple way for any family to retain the good health of all its members

The editors of "Health Hints" and "Questions and Answers" have one question that is put to them more often than any other, and which strangely enough, they find the most difficult to answer. That is "How can I cure my constipation?"

Dr. Caldwell, an eminent specialist in diseases of the stomach, liver and bowels, has looked the whole field over, has practised the specialty for forty years and is convinced that the ingredients contained in what is called Dr. Caldwell's Syrup Pepis has the best claim to attention from constipated people.

Its success in the cure of stubborn constipation has done much to displace the use of salts, waters, strong

cathartics and such things. Syrup Pepis, by training the stomach and bowel muscles to again do their work naturally, and with its tonic ingredients strengthening the nerves, brings about a lasting cure. Among its strongest supporters are Mr. John Graveline of 98 Milwaukee Ave., Detroit, Mich., and Mr. J. A. Vernon of Oklahoma City. Thousands of others of both sexes have written to Dr. Caldwell telling of gratifying results that can be obtained of any druggist at fifty cents and one dollar a bottle, or if you want to try it first a free sample bottle can be obtained by writing the doctor.

For the free sample address Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

Tax Wealth Instead of Poverty.

Should a fiscal system which permits those who own 90 per cent of the wealth of the United States to shoulder but ten per cent of the burden of taxation be remedied. The Democratic House believes that it should, and hence the passage of the excise income tax bill which levies a tax of 1 per cent on incomes in excess of \$5,000 a year.

This does not mean that all persons having more than \$5,000 must pay a tax on the excess of that sum. It means that those who have an annual income or profit of more than \$5,000 must pay the 1 per cent tax on all incomes or profits exceeding \$5,000. It will be necessary in most cases for a person to have a capitalized sum of about \$100,000 before he is called upon to pay 1 per cent tax on that portion in excess of \$5,000.

The standpatters, however, say this plan is class legislation. They were never heard to complain of the present system of raising revenue to run the government as being class legislation, although it is even more class legislation than that proposed under the excise income tax bill. Under the present system the burden falls entirely upon the masses, wealth alone being the one thing untaxed for federal revenue.

The masses of the people produce the wealth and by legislative advantage a few get possession of it, and now these few object to the transfer of the tax from but one article of general consumption—sugar—to wealth. They would prefer that the government continue to tax sugar instead of wealth, because they eat no more sugar than the section hand or the mill worker and therefore under the present system are compelled to pay no greater tax to the government than the poorest man.

The United States is practically the only one of the great nations today that raises practically all its revenue by taxing the people according to their needs and practically according to their poverty, and allows wealth to go untaxed.

The government now raises \$314,000,000 annually by placing an import duty or tariff on the things the people eat, wear or use. Banks, railroads and steamship lines pay nothing because they do not come in through the customs houses. Mr. Rockefeller pays no more taxes than the average citizen because he uses no more of the things the people must have in order to live than does the average man.

If a system which requires a millionaire to pay no more tax to the federal government than the section hand or the mill worker is fair and just, there is no need of reform; but if such a system is unjust the excise income tax bill is a move in the right direction to remedy it.

DIAMOND NOTES.

Frankfort fans are very much enthused over the prospects for their club during the coming season. A meeting was held a few nights ago and much enthusiasm was manifested, and all doubt removed that Frankfort will have a club in the Blue Grass League this year.

Richmond fans have raised the \$2,000 necessary to support the club this season and there is much rejoicing in the Pioneer town from the fact that Al Grohe, who two years ago managed the club so successfully will again be at the helm. Grohe discovered Bill Allison and Roy Golden, two shining lights in the league, who have since advanced to higher company, and is expected to have a pennant winning bunch together when the bell taps on May 1.

The Question of Broken Rails.

The Interstate Commerce Commission has full power to investigate railroad accidents and their causes and make recommendations. The Public Service Commissions of this State have similar powers, and so of the Railroad Commission of other States.

If there be lacking in these bodies power to prescribe in the manufacture of rails, there is not lacking power to expose carelessness and neglect and false economy, either with railroads or rai-makers, in the purchase or construction of rails.

The situation demands a sharper exercise of this admitted power. Hardly a day now passes that does not bring a more or less disastrous accident from breaking rails. The record for a decade extends to above 2,000 casualties, to more than 100 deaths and to more than 4,000 injured.

We know the cause. Railroad managers and rai-makers continue to juggle with this issue of death to the traveling public in a quarrel of shifting responsibility, and accidents from snapping rails go on. We have public bodies clothed with authority to locate this responsibility and to let the light of publicity at least shine upon the spot. Why are they not bringing this power into active exercise.

Oldest D. A. R. in State is Dead.

Mrs. Elizabeth Susan Switzer, aged ninety-six years, died at her home near Cynthiana Tuesday morning. Mrs. Switzer was Kentucky's real Daughter of the Revolution and one of the oldest women in the State.

She was an active member of the Samuel McDowell Chapter, D. A. R., of Cynthiana, and was the honored guest of the State conference of the Daughters four years ago. She was born in Harrison county, Ky., October 21, 1816, and was perhaps the oldest active member of the revolutionary daughters in the United States.

Chamberlain's Cough Remedy has won its great reputation and extensive sale by its remarkable cures of coughs, colds and croup. It can be depended upon. Try it. Sold by all dealers.

Want Return of Toll Gates.

A petition signed by twenty leading citizens of Nicholas county was published in Carlisle Tuesday calling a mass meeting of the citizens of that county to be held at courthouse Monday, April 8, for the purpose of discussing the proposition of returning to toll gates on the turnpikes of the county. An investigation shows that there is considerable toll gate sentiment in Nicholas, but corresponding opposition is also found. The cause of the agitation now is said to be the awful condition of some of the roads which is said to have resulted from the heavy hauling of tobacco during the winter.

New York Preacher Talks About Next World.

Charles E. Jefferson, pastor of Broadway Tabernacle in New York City, writes in the April Woman's Home Companion a wonderfully interesting article, in which he says in part:

"When one is tempted to complain because God does not let us know in this world what we are going to be and do in the next, let him remember that it is the nature of love to delight in the giving and receiving of surprises. Parents do not tell their children in advance what they are going to give them for Christmas. By keeping their children in suspense they add to the measure of their children's joy. It is with ignorance and knowledge intermingled that boys and girls awake on Christmas morning. They do not know what Santa Claus has brought; they are sure, however, that it is something fine. The knowledge and the ignorance are combined in such proportions as to create a lofty form of rapture. What delight fathers and mothers take in preparing surprises for their children. If we are created in the image of God, and if our nature is like unto the divine nature, then why should we hesitate to believe that God Himself rejoices in surprising his children. If it would make us better and happier in the long run to know in this world what we are to do in the next, He would undoubtedly tell us. Our ignorance is intended to minister to our joy. We do not know the precise things we are going to receive, but we are certain they are going to be fine. If we, being evil, know how to give good gifts to our children, and understand how to arrange the giving of them in such a way as to produce the highest possible measure of joy, how much more will our Heavenly Father take delight in surprising those who love him, when they awake on the eternal Easter morning."

HOT FLASHES.

Women in middle age often complain of hot flashes. They are at that stage of life—when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them. Many women suffer needlessly from girlhood to womanhood and from motherhood to old age—with backache, dizziness or headache. A woman often becomes sleepless, nervous, "broken-down," irritable and feels tired from morning to night. When pains and aches rack the womanly system at frequent intervals, ask your neighbor about

Doctor Pierce's Favorite Prescription.

Mrs. J. IMHOF, of 321 S. Bentall Street, Baltimore, Md., says: "I wrote you about nine months ago, telling you of my condition. I have a fine baby girl—she weighed nine pounds when born. She is my third child and the strongest of them all. My suffering was only for two hours. I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's Smart-Weed. I never had a well day before I took your medicines. I was surprised how well I felt—could eat—was always hungry, and never had a sick stomach. The nurse who was with me said the medicine was wonderful because I got along so nicely after having had so much trouble before. She intends to recommend it to all her suffering patients. Everybody is astonished at me because I only weighed 102 pounds before and now I weigh 125. I have had several ladies come to me and ask about Dr. Pierce's medicine. I am willing to recommend it to all who suffer and want help. If any want information I will be glad to give it to them."

DRINK BILL IS BIG

New South Wales Spends Millions for Spirits.

Figures Are Startling—Canon Boyce Presents Statistics Showing Expenditures by People for Liquor in 1910.

Sydney, N. S. W.—In his annual review of the drink bill of New South Wales for 1910, a self-appointed task which he has been carrying out with praiseworthy perseverance for nearly 30 years, Canon Boyce draws attention to some interesting points. In the first place the bill reaches the enormous total of £5,724,984 (\$28,624,900), an increase on the preceding year of £407,302 (\$2,036,500), due in a great measure, of course, to the increased prosperity of the people. Of this tremendous sum more than half was spent on spirits, which shows an increased consumption of 128,470 gallons as compared with 1909. The sum of £2,281,922 (\$11,159,600) was spent on colonial beer, the "workingman's beverage," showing an increase of considerably over 1,000,000 gallons as compared with the preceding year.

Out of the total sum of £1,413,914 (\$7,069,500), or less than one-fourth, went to the revenue, either in the shape of license fees or customs and excise. Against the revenue obtained from the drink traffic Canon Boyce places a huge debit balance amounting, he thinks, to at least £2,000,000 (\$10,000,000), through the maintenance of our reformatory and jails, asylums for the insane and various other institutions which are rendered necessary to a large extent by the abuse of intoxicating liquors, an expense which, of course, has to be borne in mind when considering the question as it should be considered—from a moral as well as a financial point of view. The cost per head of the population is placed at £3 10s. 6d. (\$17.13), or £7 12s. 6d. (\$37.09) for a family of five persons. This is a very vague way of reckoning it, and children, for the most part, and large numbers of adults never touch intoxicating liquors at all. Still, it is the only way statisticians have of making the expenditure clear to the intelligence of the people.

One year's expenditure sounds bad enough, but when we reckon on the decade it becomes appalling. The drink bill of New South Wales, for example, during the ten years since federation was established amounted to nearly £50,000,000 (\$250,000,000). Why, the debt for the whole state only amounts to £87,500,000 (\$437,500,000), which, therefore, represents a drink bill of a little over 17 years. The annual interest and charges on the public debt amounted in 1908 to £2,413,628 (\$17,068,100), or £2 3s. 5d. (\$10.56) per head; so that the drink bill for one year is within a million of double the amount named.

However, we are not singular in this respect. There are others, and they are very nearly as bad—some of them in fact are worse. Among the latter are Queensland with £3 13s. 10d. (\$18.42) per head; New Zealand, £3 13s. 1d. (\$17.74) and England, £3 12s. 4d. (\$17.58). The United Kingdom, on the whole, however, is £3 13s. (30 cents) per head below our standard, Scotland and South Australia being about on a par—£2 13s. 2d. (\$12.92), and £2 14s. 6d. (\$13.22) per head respectively. Victoria is also below us with £3 7s. 9d. (\$16.48) per head, as against our £3 10s. 6d. (\$17.13).

Canon Boyce draws special attention to the fact that the drink bill in the no license districts of New Zealand is only 16s. 4d. (\$3.92) per head, a significant fact if the figures are correct. We do not wonder at Queensland heading the list, because the climate is so hot in the summer months that liquor vending of all descriptions must be a roaring trade.

WRITES WITH HIS TEETH

Resident of Palo Alto, Pa., Without Arms Gives Legal Proof of Signature.

Pottsville, Pa.—Frank J. Dotterweich of Palo Alto astounded the officials of the Schuylkill county recorder's office recently when he swore that his signature had been affixed by himself to a legal document executed before Justice of the Peace John J. O'Connor, although he has neither hands nor forearms.

To verify his statement the cripple gave a demonstration of his prowess with the pen, which he held between his teeth.

LEAVE STATE; EVADE LAW

Why Massachusetts Millmen Drink Water in Connecticut-cut.

Perryville, Mass.—Although the employees of the Perry mill here work in Massachusetts, they are obliged to go into the state of Connecticut whenever they want a drink of water. This is not much of a hardship, as the factory straddles the state line, and the men have only to cross the room to get from one state to the other. A new Massachusetts law forbids the use of a common drinking cup, so the payroll containing the drinking water is kept in the other state.

97 CATS TO BREAKFAST.

Cheshire, Conn.—Cheshire has the distinction of having the first home for friendless cats to be established in Connecticut, if not in New England.

Walter Scott, proprietor of an inn, has fitted up a large room in the basement of his hotel where any homeless cat can take refuge and get three square meals a day. Ninety-seven breakfasted there in one morning.

NO NEED TO BE POOR.

Pittsburg.—"Society has plenty of money and there need be no poor if resources were properly distributed," Prof. Edward T. Devine of Columbia university told an audience.

WISE MEN FOUND IN AFRICA

Germany Wants Them to People the New Territory She Got Through France.

Berlin.—Dr. Nekes, an authority on Africa, has found in the neighborhood of new German territory surrendered by France a tribe he describes as "the people of the future," assigning to them practically all the civilized virtues, as well as original strength and manliness.

The new nation is a branch of the mighty Fang race called Jaunde. They number half a million now, and are rapidly increasing. The whole nation is pushing westward from its native region near the sources of the White Nile.

Dr. Nekes says the people are amazingly intelligent, very powerful physically, are fond of work and have an astonishingly rich language, in which they can impress in native idiom the most modern ideas of the most modern things—such as cigars and telephones.

They are divided into three social classes—freemen, freedmen and slaves captured in war. Their religion consists partly of ancestor worship and partly of belief in ghosts. Considering that all evil comes from witchcraft and sorcery, they have witch finders.

Regarding women as the source of all mischief, when a chieftain dies they beat his wives to make sure that they punish the right one. Nekes regards them intellectually on the level of the Europeans in the middle ages. He says they have the same fixedness of purpose, unspoiled by modern softness.

Strong efforts are to be made by the German government to persuade this rapidly multiplying people to settle in new German territory, where they will be carefully looked after until they are fully able to provide for themselves.

HIGH COST HITS GOTHAM ZOO

Eggs Are No Longer Fed to New York Monkeys—Little Milk Is Given Animals.

New York.—The latest complaint over the high cost of living comes from the Central park menagerie, where it appears that the monkeys, lions and hippos are leading the simple life owing to the taking of expensive luxuries from their bill of fare.

The monkeys have not seen an egg in two months. They used to get one apiece every day before breakfast, but it would be like offering them pearls now to feed them eggs, according to Overseer Keenan. The only luxury they have is milk, and that with plenty of water in it, for the supply is only five quarts a day, and there are 60 monkeys to drink it.

"Ten years ago," explained Mr. Keenan, "we could board a monkey for seven cents a day and a hippo or elephant for 60 cents. Now it costs 12 cents for the monkeys, \$1 for the hippos and \$2.75 a day for the elephants."

"The big item in the menagerie bill, however, is the meat. The tigers and lions need from 12 to 18 pounds of meat a day and the cost runs close to 10 cents a pound. A decade ago the zoo was able to buy the necessary 250 pounds a day around 4½ cents a pound."

U. S. SEEKS ISLAND TITLE

Palmyra, 600 Miles From Hawaii, Discovered by American in 1852—Proclaimed Part of Kingdom.

Washington.—Rumors that Great Britain intended to take possession of the no license districts of New Zealand is only 16s. 4d. (\$3.92) per head, a significant fact if the figures are correct. We do not wonder at Queensland heading the list, because the climate is so hot in the summer months that liquor vending of all descriptions must be a roaring trade.

Officials professed ignorance of any issue being raised as to the ownership of the island, but admitted that title was vague.

Palmyra Island was discovered in 1852 by an American shipmaster, was proclaimed part of the kingdom of Hawaii in 1882, and was annexed by Great Britain in 1889. The question at issue is whether the British annexation cancelled the prior Hawaiian title, for if it did not, then Palmyra Island would probably be held to have been annexed to the United States in 1898.

LEAVE STATE; EVADE LAW

Why Massachusetts Millmen Drink Water in Connecticut-cut.

Perryville, Mass.—Although the employees of the Perry mill here work in Massachusetts, they are obliged to go into the state of Connecticut whenever they want a drink of water. This is not much of a hardship, as the factory straddles the state line, and the men have only to cross the room to get from one state to the other. A new Massachusetts law forbids the use of a common drinking cup, so the payroll containing the drinking water is kept in the other state.

"THE HOME OF QUALITY."

Shire & Fithian.**MATRIMONIAL.**

Dr. J. H. Comer, of this city, and Miss Luetta Collier, of Millersburg, were married in Louisville Wednesday afternoon at 3 o'clock at the residence of Rev. Mr. Leitchfield. Announcement was made a few weeks ago of the engagement of the young people, but the date of the marriage was kept secret.

The bride left Millersburg Tuesday afternoon in an automobile to go to Lexington, but continued her journey to Louisville, going to the home of her friend, Mrs. Wallace Shannon, who formerly resided in Millersburg. Dr. Comer left Paris Wednesday morning on the 7 o'clock interurban car and went to Louisville from Lexington and joined his fiancee.

The bride is a charming young woman, the daughter of Mr. and Mrs. Nathan Collier, who reside near Millersburg on a fine farm. She is highly educated and accomplished and has spent some time abroad.

The groom is a popular young dentist of this city where he has been located for the past five years and is a son of Mr. and Mrs. R. F. Comer, of Monroe county.

Dr. and Mrs. Comer, after the ceremony, left for a trip South and on returning to Paris will reside on Cypress street where Dr. Comer recently purchased a handsome home.

**Blue Grass League Directors
Meet.**

The Blue Grass League Directors met in Lexington Tuesday and formally adopted the playing schedule as amended by the directors at the meeting. The schedule has not been made public but will be given out the first of next week. The season will open May 1 and will close September 5.

A resolution providing for an "umpire day" introduced by President Wm. Neal, was adopted. This is a day set apart by each club where the umpire is treated with all possible courtesy and consideration by the players and spectators. The blue Grass League is the first to adopt this plan. George L. Martin, of Louisville, was elected as treasurer of the league to succeed W. S. Minary, resigned. President Neal said that the prospects for a good year in this league were very bright.

A rule was adopted providing for a megaphone to be on each club grounds for the use of the umpire in announcing the batteries. After June 1, according to President the rule prohibiting the tossing of the ball round the infield will be enforced. Indications point to a very competent corps of umpires this season as President Neal has exercised the utmost care in selecting his men. The Paris club was represented at the meeting by President J. W. Bacon.

F. F. Hurst's Will Probated.

The last will and testament of the late Fielding F. Hurst, who died recently at his home in Millersburg, was admitted to probate in the county court Wednesday. The instrument, which was written only a short time before the death of Mr. Hurst, was very brief and provides that his wife, Mrs. Minnie F. Hurst, shall qualify as his administrator without bond and asks the court to appoint her as the guardian of their three children without surely. Mrs. Hurst is instructed to collect all of his life insurance and after the payment of all of his just claims, the remainder of his estate

shall go to the support of his wife and children. The will bears the date of March 12, 1912, and was witnessed by T. W. Current and C. C. Chanslor.

Defeat Lexington.

The basket ball team of the Paris High School won well earned victory from the Juniors of the Lexington High School team at the High School Gymnasium Wednesday evening, the game resulting in a score of 30 to 19. The contest was a fast exhibition from the start and after five minutes of play in the final period the score was tied. The local boys drew away from their opponents in the last half winning with ease. The game was one of the roughest ever seen on the local floor. The line-up follows:

Paris—Curtis and Chisholm, forwards; Thompson, center; Horton and Adair, guards.

Lexington—McClintock and Smith, forwards; Barclay, center; Bryan and Pendleton, guards.

Field Goals—Curtis 6, Thompson 4, Chisholm 3, Smith 2, McClintock 2, Bryan 1, Barclay 3.

Foul Goals—Smith 3, Curtis 4.

To Our Patrons

We respectfully direct your attention to the extensive and choice stocks of Spring merchandise now assembled in our store. They comprise the very largest and most select gathering of new merchandise that has ever been collected under our roof at the opening of a season.

Every section of the store offers most complete selection. Our assortments mirror every authoritative new fashion, every new style-thought for Spring. Everything is fresh and brand new, as all goods in the store when our reorganization took place have been entirely disposed of.

Our buyers spent many weeks in the Eastern markets engaged in selecting from the products of the foremost manufacturers and importers the various lines of foods we now have the pleasure of offering you. They have exercised the most scrupulous discrimination in their selection, being ever on guard against the admission to our stocks of unauthentic styles or unreliable qualities.

Being constantly in touch with market conditions they were in a position to buy under the most favorable circumstances, which permits us to offer very attractive values. From every point of view we are in a position to serve you better than at any time in our history.

Our Dress-making Departments are taking orders now for before Easter delivery, Miss Brennan and Miss Brown having returned from the East with all the latest style ideas.

MASTER-SMITH OF THE DAY

Produces Steel of Cutting Capacity Surpassing Work of Legendary Swordmaker.

We are all familiar with the old-time legends of the master-smith, who, by his skill at the forge, was able to produce for the hero of the tale a weapon which should cut through the armor of giant or wizard and maintain its temper and edge against all tests.

The modern industrial captain has to cut his way also through metal, and one of the notable achievements of the engineer and metallurgist has been his success in the production of steels of hardness and cutting capacity which, altogether surpass the finest work of the legendary swordmaker.

Not content with the manufacture of tool steel of hardness, high-speed cutting capacity and exquisite temper, the modern master-smith has now produced a method of converting soft iron or low-grade steel into tool-steel of the highest grade simply by the infusion of the necessary proportion of carbon and other elements by contact and proper heat treatment, so that keen-edged chisels may be made from railroad spikes and machine cutters from soft and inexpensive steel.

Trials of cutting tools made by the infusion process at the ordnance bureau of the United States navy department have given such remarkable results, both as to cutting speed and endurance, that the chief of the bureau says: "From the test of the infusion-treated samples, it appears superior to any hardening process now in use at the naval gun factory," so that the modern master-smith has outstripped the fabled tales of the wizard weapon-maker of mediaeval times.

DOUBLE REPORTS IN FIRING

Curious Effect Produced by Use of Maxim Silencer During Target Practice.

Taking as his text the double report noted during the firing on the battleship North Carolina during the recent aerial target practice, Hiram Percy Maxim writes: "Our experiments with the Maxim silencer have developed many other interesting cases. For example: If a rifle equipped with a silencer is fired down a railroad track having telegraph poles along the side there is a distinct 'crack' heard for each telegraph pole. If the rifle is fired from an open field with a tree or a clump of bushes at, say, 200 yards, there is heard a 'crack' from this clump of trees. If there are several detached clumps of trees or bushes over the open field, there will be heard a 'crack' for each of them. If, instead of firing parallel with the ground, the gun is elevated and fired straight up in the air, we hear no noise at all, except the fall of the hammer and the 'puff' of the gases escaping from the silencer."

"The reason for this is probably as follows: In the ordinary gun the report noise is so loud that it engulfs all other sounds, and we are conscious of nothing but report noise itself. It is not until this report noise is annulled that we can hear the 'bullet flight' noise. This latter noise, being made out in the air beyond the gun, can come back to the shooter only by reflection.

"If there is one object, we get one reflection and one noise. If there are many separate objects, we get many separate reflections and separate noises. If there are no reflecting objects, such as when shooting straight up into the air, then we get no reflected noise."

Trolley Rail Tugboat.

Tests of a new touring system, invented by a German engineer, Herr Koss, have recently been made on the Dortmund Ems Canal, which give promise that the invention will be a success. An elastic rail is laid at the bottom of the canal, and the tugboat carries at its bottom four rollers which clasp this rail. These rollers are operated from the boat which is thus propelled. A large economy of power is claimed for this method. The experimental tug is worked by electricity, the energy being obtained through a cable from an auxiliary boat equipped with a dynamo. This, however, is only an experiment, and in ordinary working a trolley wire would be installed alongside the canal. Electrical operation can obviously be replaced by crude oil motors, etc., each barge being fitted with a set of rollers acting on the rail.

Pilgrim Trade Has a Boom.

The Mahometan is not so behind the times as some would make him out. He has proved himself quick to take advantage of the conveniences of modern civilization.

Before the Hedjaz Railway was begun the number of pilgrims to Mecca was about 90,000 a year. In 1904, when one section of the road was opened, this number jumped at once to 200,000. In the last year for which there is any record it exceeds 280,000.

These faithful followers of the prophet included 113,000 Turks, 40,000 from India, 17,000 from North Africa and even 4,000 Malays.

Not Exciting.

Mrs. Stirling used to tell how, during a brief holiday to somewhere on the Clyde, being kept indoors by three wet days, Stirling read the Greek Testament continuously aloud to her, first in Greek and then in English. She was a truly religious woman, but she owned to being glad when the rain ceased.—Life of James H. Stirling.

Master Commissioner's RENTING OF LAND.

BOURBON CIRCUIT COURT.
Joshua Barton's Administratrix, etc., vs.
Virgil Barton, etc., Defendants.

Under and by virtue of an order in the Bourbon Circuit Court rendered in the above styled action, the undersigned Master Commissioner of the said Court will rent at public auction to the highest and best bidder, at the front door of the Bourbon county court house in the city of Paris, Ky., and about the hour of twelve o'clock, noon, on

MONDAY, APRIL 1, 1912,

the following described property, viz.: About 283 acres of land hereinafter designated, belonging to the estate of Joshua Barton, deceased, as follows:

That portion of the land consisting of about 25 acres lying next to Billy Smith and about 45 acres lying back of the Mansion House and adjoining Thomas Jones, and about 17 acres adjoining Ed Ingels and Thomas Jones, to be cultivated in corn; about 20 acres in the woods, next to Kennedy, to be cultivated in tobacco; about 25 acres now in rye is to remain in rye, but the renter may have the use of the same; about sixteen acres of land now in wheat the renter is to have, but is not to cultivate the land in any other crop; about 45 acres is to remain in clover, the renter to have the privilege of cutting the same or grazing it down, but the land is not to be cultivated. The renter is to have the use of two tobacco barns on the place and all the tobacco sticks in the two barns for the purpose of housing the tobacco. Renter is to have use of the horse stable near the house place and is to have right of egress and ingress over the land hereinafter designated as set aside for the widow, Jessie B. Barton. The remainder of the estimated 283 acres being now in grass is to remain in grass and in no event is to be cultivated. The renter is to have use of two tenant houses located on the property above described to be rented and the renter has the privilege of putting tenants and employees in either house, being responsible to the estate for all damages in excess to ordinary wear and tear. He is further to allow Jessie B. Barton the use of the upper shed of the home barn for the purpose of housing her stock during the winter, and to that end must agree to get his tobacco out at the earliest practical moment. There is reserved to Jessie B. Barton the Mansion House, yard and garden and all the outbuildings now occupied by her, and the lane and lot and front pasture of about 15 acres of land lying around what is known as the Virgil Barton house, she is also to have what is known as the wood pile lot, and she is further to have the upper shed in the barn next to the house for the purpose of housing her stock in the winter; this is subject to the right of the renter of the land above indicated to the use of the barn for tobacco purposes and right is reserved by his heirs to enter upon the land in the fall of the year for the purpose of seeding or at any time to observe the manner in which the property is being treated, and the right is further reserved for Commissioners to enter upon the land at any time during the rental period for the purpose of dividing the same under orders of this Court, and the undersigned Commissioner will rent the above described land upon the above and set out conditions as a whole for a period beginning April 1, 1912, and ending March 1, 1913.

Said renting will be made upon the following terms: The renter will be required to execute bond due and payable March 1, 1913, with surety to be approved by said Commissioner, bearing interest at the rate of 6 per cent per annum from March 1, 1913, until paid, and having the force and effect of a judgment.

DECIDE YOURSELF.

The opportunity is here, Backed By Paris Testimony.

Don't take our word for it. Don't depend on a stranger's statement.

Read Paris endorsement.

Read the statements of Paris citizens.

And decide for yourself.

Here is one case of it: Mrs. A. C. Crawford, East Tenth street, Paris, Ky., says: "Although I never had occasion to take a kidney medicine myself, I know what Doan's Kidney Pills will do, for they have been used in our family. One of us was suffering from backache and pains through the kidneys and the action of the kidneys was irregular. Doan's Kidney Pills gave splendid results."

Mrs. Crawford is only one of many Paris people who have endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Crawford had—the remedy backed by home testimony.

—Allie Jones, of North Middleburg, sold to a Southerner Texas buyer an extra good black saddle horse at a fancy price. The horse was shipped Monday night in charge of John Rye, of this city.

—W. L. Bramblette has sold his farm containing 93 1/2 acres of land on the Paris and Jacktown pike, to Mr. R. L. Parker. The farm adjoins B. F. Walls land and is on Hinkston creek. The consideration was private.

—The stockholders of the Farmers' Loco Leaf Warehouse in Carlisle Tuesday voted to increase the capital stock from \$27,000 to \$100,000, and another large warehouse will be erected in that city.

—Mr. Crit Pepper, formerly of Bourbon county, but who is now engaged in growing tobacco on the farm of Mr. Clarence Lebus in Fayette county, sold a basket of 20 pounds of cigarette tobacco in Lexington Monday for 70 cents per pound.

—During the recent rush on the Mayville tobacco market the members of the Aid Society of the First Baptist church solicited a hand from each wagon of tobacco, and every basket. They placed on sale a small basket of their holdings which brought \$40.

—According to the statement made in Cincinnati Tuesday by Col. John R. Allen, of Lexington, representing the Burley Tobacco Society, the Tobacco Society plans to erect plants in Louisville or Covington, or in both cities for the manufacture of the product of the members of the society.

On Sanity's Border Line.

Experts can hardly define the thin line that separates the insane from the sane. There is a twilight of the mind in which many people buy and sell, love and divorce, marry and give in marriage and live and die. At no time in their lives are they really insane more than a few moments at a time and yet they live in a world that is jangled, out of tune and different from that all around them.

Even in Those Days.

The children stood in awe before one of the museum mummies. At last the elder whispered to her father, "Why is the old woman wrapped up in bandages? Did she die of an accident?" Before he could reply the younger girl said, "Oh, yes! She must have been run over by a motor car. There's the number—B. C. 1461."

Professional Bomb Throwers.

The Chinese corps of trained bomb throwers reminds us that our own regiment of Grenadier guards takes its name from the grenades or small bombs which in early days they hurled at the enemy in an assault. And this primitive duty is also commemorated in a flaming grenade embroidered on the collars of their tunics.—London Chronicle.

How to Get a Change.

When it is impossible to move a convalescent into different surroundings for the sake of a change, move the furniture and pictures of the room into different places. An invalid often tires of seeing the same pictures and ornaments in the same places week after week. Change the position of the furnishings, and it will seem almost like moving into another room.

Hospital Service for Dogs.

A special ambulance service has recently been started in London for wounded dogs. It is run in connection with the Animals' Hospital and Institute at Kinnerton street, Pimlico. When a dog is run over in the street or injured in any way, the hospital may be phoned and a motor ambulance is immediately despatched. A qualified attendant always accompanies the ambulance.

REXALL "93" HAIR TONIC

When Pride is Justified.

Far too many mortals are vain and satisfied because of some temporary mercenary advantage, and in the eagerness to display that advantage at every opportunity often destroy their greatest blessing, the physical counterpart of sunshine, which is their own health. Neglected colds, irregular meals, overloaded stomachs and night revleys result in shattered nerves, depressed vigor and fatigue all of which invite decline and disease.

Each person stands sentinel at the portals of his own health and he who guards, protects, strengthens and builds up a rugged constitution is justified in pride and finds therein his own recompense—the capacity to enjoy the fullness of life.

The strain of modern commercial and social living taxes strength and energy and in maintaining the highest self efficiency we should not only cultivate deep breathing, out of door exercise, regularity and temperance in all things but study the greatest of all physical power creators which is body nourishment. In this, alcoholic preparations should be carefully shunned and such prestigious nourishment as Scott's Emulsion which enriches the blood and creates vitality by building, healing and strengthening should be selected.

Scott's Emulsion is scientifically prepared and is good for teething babies, nursing mothers, growing children, the aged and infirm. It contains no wine or stimulant, but is wholesome and pure and has helped millions to regain health and sustain it. Worthless substitutes are sometimes offered, but Scott's Emulsion is the genuine pure food medicine.

Girl Grows Crop of Tobacco.

Millersburg can boast of a very successful tobacco grower of the gentle sex and from the fact the crop was tended by a girl of 13 years of age makes it all the more remarkable. The girl is Miss Agnes Waddell, daughter of Judge T. P. Waddell of Millersburg, and the tobacco was grown in the turtley pens in Millersburg. Miss Waddell cared for her crop from the time the plants were set until the

tobacco was ready for cutting when male help was employed. The crop consisted of about 130 pounds, which was sold on the loose leaf market at Carlisle for an average of \$20 per hundred. Miss Waddell is happy over the price she received for her product.

Hospital Location May Be Changed.

When the Massie Memorial Hospital is established in this city it will in all probability be of a different location from that set out in the will of Mrs. Anna K. Massie who, upon her death bequeathed her home place "Hidaway" at the corner of Vine street and Stoner avenue for the purpose. It is the purpose now to buy the White property, first proposed as a hospital, and dispose of "Hidaway" to Mr. W. C. Massie, a son of the late W. W. Massie.

Mr. Massie met with the trustees of the hospital, Mrs. E. F. Clay and Mrs. Lucy Simms, and made a proposition to purchase the property that it may be perpetuated in the family and at the meeting of the City Council last night the matter was taken up. By a unanimous vote the Finance Committee was instructed to dispose of the bequest of Mrs. Massie to the only son of her deceased husband, and to use the proceeds in the purchase of the White property to be used for the hospital.

The trustees of the proposed hospital met with Mayor Hinton yesterday and discussed the proposition made to them by Mr. Massie. Mrs. Simms and Mrs. Clay have secured an option on the White property at \$6,000 and it is the purpose to sell the bequest of Mrs. Massie and utilize the proceeds in the purchase of the White property. Following the action of the Council last night the Finance Committee will at once open negotiations with Mr. Massie looking toward the transfer of the property to him if amicable terms can be reached.

The White property has long been regarded as the most logical place for the hospital. It is located in an ideal spot with the most excellent surroundings. The building contains twenty-three rooms and is in a good state of repair. It was erected by the late G. G. White at a cost of \$30,000.

Agricultural Train Here Today.

The Agricultural Special Farm train, which is making a tour of thirty countries in the State, will arrive in Paris this morning at 9 o'clock. Much interest is being manifested in the train in the cities through which it has passed and farmers have turned out in large numbers to witness the exhibits and hear the lectures. One department is devoted entirely to chickens and dairy products and the ladies of the cities through which the train has passed have taken advantage of the opportunity to view the display [which is the most complete of the entire train. Farmers and town folk should take advantage of the opportunity presented them this morning and during the two hours the train will be here attend the displays and lectures. The train will arrive promptly at 9 o'clock from Cynthiana.

Part 2—Scenes depicting college life, college songs, college fun by college men.

Knights Templar Busy.

With the one object in view of making the sixty-fifth annual Conclave of the Knights Templar of Kentucky one of greater success than any that has been held in previous years, Coeur de Lion Commandery No. 26, of this city, is making extensive preparations for the reception of the plumed army in Paris on May 29 and 30.

Following a meeting held a few nights ago at which various committees were appointed to have the work of arranging for the Conclave and the entertainment of the visitors, each committee has gone to work in earnest and their efforts promise to eclipse the conclave held here six years ago which was such a pronounced success.

At the head of the executive committee is Mr. M. H. H. Davis, one of the best known Masons in the State, and he, together with the other members of the committee are laying plans, which if worked successfully will insure the most successful meeting of this branch of Masonry in the history of the grand lodge.

The music committee at a recent meeting closed a contract with the Paris-Military Band for the service of the local commandery during the two days of the conclave. The band will be composed of twenty musicians and the contract was awarded to the Paris band over bidders from other cities. Following are the committees which have been appointed:

Finance Committee—M. H. H. Davis, chairman; Roy Clendenin, O. R. Rankin, H. O. James.

DEATHS.

—Mr. Harry P. Forrester, formerly of this county, died in Chicago Monday night after an illness of about six months. Mr. Forrester was a son of the late Judge Robert and Mary Forrester, of Bourbon county, who resided near Jacksonville. He is survived by his wife, who before marriage was Miss Kate Smedley, of Hutchinson, a sister of Messrs. Aaron, Broad and Wm. Smedley, of Hutchinson, and John G. Smedley, of Millersburg, and three sons, Broad Forrester, of Mississippi, and Hughes and George Forrester, of Chicago. The funeral was held in Chicago yesterday and the remains interred in Oakwood cemetery.

THEATRICAL.

"THE GIRL OF MY DREAMS."

At the Paris Grand next Thursday, April 4, Jas. M. Gaites will present John Hyams and Leila McIntyre in his atmospheric musical play, "The Girl of My Dreams." This musical production which had its initial presentation in Chicago last season, is said to be one of the most delightful and refined musical plays seen in years and a worthy successor to Gaites' famous "Three Twins."

The story of the piece tells of a bachelor's downfall before the charm of a demure little Quaker girl. These roles will be those of the principals, John Hyams and Leila McIntyre. The bachelor is much of a club man and has the cynical attitude of his class toward the feminine sex. A habit of breaking village speed ordinances leads him into a bad motor accident. He is carried, much injured, into a Quaker household where he is nursed back to health by the girl. By the time he is able to look about from an arm chair his ideals of bachelorhood are shattered.

The Quakeress and her father go later to the city to see the bachelor and the young woman is much shocked by her prospective husband's friends. She doesn't know whether she loves him or not, but the sky is clear in time for a happy wedding just before the drop of the final curtain. The piece is chock full of catchy musical numbers, "I'm Ready to Quit and Be Good" effectively rendered by Mr. Hyams, and Miss McIntyre's delightful "Doctor Tinkle Tinker" being the most popular.

The supporting company numbers among the principals Alice Hills, Harold Forbes, Carrie Bowman, Irving Brooks, Wm. G. Ricciardi, Della Nevin, Percival Aylmer and Henry Carl Lewis. Seats on sale at Mitchell & Blakemore's. Free list is entirely suspended.
